

FOR ACCURATE MEASURE:

1. Sit to take weight off of foot.
2. Place inside of right foot to left edge of chart.
3. Place heel of right foot to bottom edge of chart.
4. Read chart from directly above foot.
5. LENGTH is taken from end of big toe. If tip is in shaded area order half size.
6. WIDTH is taken at widest part of foot. Take measurement from area, MEDIUM, or WIDE bar, where edge of foot falls.
